

## Cleanse (no rinse)

For frequent cleansing and moisturising when soap and water may otherwise dry the skin

# TENA Wash Cream

This creamy 3-in-1 formula promotes skin health by gently caring for and protecting the vulnerable skin of elderly residents.

- Primarily used for frequent perineal skin care of incontinent residents when changing absorbent products – but can also be used for full body cleansing
- The emulsion is ideal for cleansing and hydrating even the most delicate and fragile skin, no rinsing required
- Dermatologically tested
- Helps maintain the skin's natural pH and control odour
- Optimises caregivers' time, allowing them to attend to residents' other needs<sup>1</sup>
- To be applied with TENA wipes or gloves
- Leaves skin over 7x more moisturised than soap and water<sup>2</sup>

Product Name	Order #	Description	Pcs/Case	Format
TENA Wash Cream	-	1000ml	8	Pump Bottle
TENA Wash Cream	-	500ml	10	Pump Bottle
TENA Wash Cream	-	250ml	10	Flip-cap tube

## Safety

The product fulfils the requirements of Regulation (EC) No. 1223/2009 of the European Parliament and the Council of 30 November 2009 on cosmetic products. As stipulated in Article 18 the product has not been tested on animals. The production unit is following the international standard ISO 22716:2007 as regards product documentation and Good Manufacturing Practices, GMP. The product has been evaluated with epicutaneous testing under dermatological control.

## First aid

If discomfort is experienced after eye or skin contact, rinse for several minutes with lukewarm water. If eye or skin irritation persists, consult a physician. Upon ingestion of larger amounts, do NOT induce vomiting. Rinse the mouth and drink a glass of water. Where appropriate, consult a physician.

## Physical properties

**Physical state:** Cream, oil-in-water emulsion

**Smell:** Light fragrance. Perfume-free version available

**Solubility:** Water soluble

**pH:** 5.5

Ingredient (INCI name)	Role
Aqua	Solvent
Glyceryl Stearates	Emollient, emulsifying
Cetearyl Isononanoate	Emollient
Cetyl Palmitate	Emollient
Glycerin	Humectant
PEG-20 Glyceryl Stearate	Emulsifying
Cetearyl Alcohol	Emulsion stabilising, viscosity controlling
Cetareth-20	Emulsifying
Xanthan Gum	Viscosity controlling
Parfum	Perfuming
Acrylates/Beheneth-25 Methacrylate Copolymer	Viscosity controlling
Sodium Citrate	Buffering (pH adjuster)
Sodium Hydroxide	Buffering (pH adjuster)
Phenoxyethanol	Preservative
Benzoic Acid	Preservative
Dehydroacetic Acid	Preservative

Not present in perfume-free version

## Storage and period of use

**Product durability after production (expiry date):** 36 months

**Period After Opening (PAO):** 12 months

### Recommended storage temperature:

It is recommended that TENA Wash Cream is stored above 0°C, but not above room temperature (25°C). Protect from freezing, direct sunlight, extreme temperature variations and excessive heat. Exposure to high temperatures will accelerate the ageing of the product and the product durability cannot be guaranteed.
